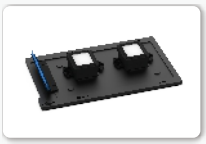
Genuine Epson I3200 E1 Print Heads

Compared with Epson DX5, Epson I3200 has almost doubled NPI, higher fire frequency, greater effective print width & smaller installation space, which enables faster printing speed.

GZ Variable Dot Technology

GZ variable dot technology delivers flawless skin tone, smoother gradient, crisp text and intricate detail without compromising speed.



Optimized Cleaning System

Newly designed capping& wiping system with one-pass wiper speeds up the print head maintenance with much lower noise. It maintains the print heads status to achieve perfect output.

Adjustable Stepping System

One-piece grid roller with pressure adjustable pinch rollers assure accurate and wrinkle-free media stepping for different thickness of materials.

Intelligent Heating Unit

New-developed heating unit for ink supply system and print head ensures smooth ink flow and stable jetting performance, especially in the cold season.

High-End Configuration of Movement System

Germany brand-Igus chain ensures low noise, less vibration and high durability for carriage movement.
