

2.5m Digital Full-color Corrugated Printer

*Different models may vary in appearance and color. Images are for reference only—please refer to the actual product.

High-speed, high-precision, ultra-wide format

MP2516E

- Equipped with Epson / Starfire print heads
- Printing speed up to **1000** m²/h
- Optional **2.5m** / **2.8m** paper feeding width
- Supports variable data printing such as QR codes
- Widely applicable to large household appliances, etc.

Gongping Digital introduces a full range of customizable digital corrugated printers with Starfire/Epson print heads, available with grooving machine and inline system. CMYK printing ensures vivid colors, clear images, and strong adhesion. Singlepass models boost productivity for large-scale production, while scanning models handle small, customized orders, meeting all corrugated packaging printing needs!

Mastering Print Arts, **Crafting Quality** with Precision

Lead the digital printing technology and reconstruct the packaging ecosystem

ITEM	SPECIFICATION
Model	MP2516E
Print Head	Epson I3200 / Starfire SG1024 (Customizable)
Printing Width	2500mm (2800mm optional)
Feeding Width	2500mm (2800mm optional)
Printing Speed	1000m ² /h
Printing Accuracy	360×600dpi / 200×400dpi (Customizable)
Media Thickness	1~15mm (Customizable)
Software	MainTop + GZ control console
System	Win10
Print Media	Yellow cardboard, white cardboard, coated paper
Power	50/60HZ, 380VAC(±10%) 28KW
Ink	GZ water based eco ink (dye, pigment optional)
Color Config.	CMYK
Dimension (with Paper Feeder)	4470×3390×2000mm (excluding stacking)
N.W.	4800kg(without stacking)
Working Environment	Temp. 18°C~30°C, Humidity: 40%-70%.
Feeding System	Front edge automatic feeding, vacuum adsorption platform
