

Singlepass Digital Corrugated Printer

*Different models may vary in appearance and color. Images are for reference only—please refer to the actual product.

High-speed format

Mass Production Power **SP1688E**

- Customizable with Epson/Starfire print heads
- Printing speed up to **120m/min**
- Optional **1.6m/2.8m** paper feeding width
- Optional grooving machine and inline system
- Widely applicable to retail goods, etc.

Gongping Digital introduces a full range of customizable digital corrugated printers with Starfire/Epson print heads, available with grooving machine and inline system. CMYK printing ensures vivid colors, clear images, and strong adhesion. Singlepass models boost productivity for large-scale production, while scanning models handle small, customized orders, meeting all corrugated packaging printing needs!

Mastering Print Arts, **Crafting Quality** with Precision

Lead the digital printing technology and reconstruct the packaging ecosystem

ITEM	SPECIFICATION
Model	SP1688E
Print Head	Epson I3200 / Starfire SG600 / Starfire SG1024 (Customizable)
Printing Width	1418mm (Customizable)
Feeding Width	1600mm (2800mm optional)
Printing Speed	120m/min
Printing Accuracy	400×400dpi / 360×600dpi (Customizable)
Media Thickness	1~15mm (Customizable)
Software	MainTop + GZ control console
System	Win10
Print Media	Yellow cardboard, white cardboard, coated paper
Power	50/60HZ, 380VAC (±10%) 75KW
Ink	GZ water based eco ink (dye, pigment optional)
Color Config.	CMYK
Dimension	6000×3800×2400mm (with Paper Feeder)
N.W.	17500kg (without stacking)
Working Environment	Temp. 18°C~30°C, Humidity: 40%-70%.
Feeding System	Front edge automatic feeding, vacuum adsorption platform, grooving machine
